

Greetings all,

For the past 4 years the board has been able to hold the line on track rental fees with no changes in prices or structure. However, with both increased demand and maintenance costs an update to the policies is warranted. The goal is to assure track accessibility for individual members and families as well as be fiscally responsible given ever increasing maintenance costs.

Accessibility highlights include an increased number of open practice days associated with holidays and common school breaks. A new “shared time” rental structure to help defray costs for individual renters. A new deposit requirement to help curtail last minute cancellations, in turn increasing availability. As well as limiting how far in advance reservations can be made enhancing opportunity for everyone to book.

- Large group rentals ALL DAY (8 hrs) includes the first 10 drivers.
- “Shared Time” track rentals wherein two or more renters can rent the track simultaneously (up to 4 drivers per party). Sharing track time with alternating time segments (default 20 min sessions, 10, 15 and 30 minute sessions at the discretion of the parties). Still 2 hour blocks but each party responsible for only 1 hours. First renter on the books determines track layout.
- Only able to reserve up to 3 months in advance. Enrollment opens on the first of every month for 2 months later.

New policies, including price increase, will go into effect July 1st, 2026. As part of this update, all track rentals currently scheduled beyond July will be removed from the track calendar. When May begins, the calendar will then open for July rentals. This same process will continue each month moving forward.

We certainly appreciate everyone’s patience as we make this transition. We will continue to monitor usage and are open to changes to the proposed system that are in the best interest of our present and future members.
